

In May 2022 we went to Normandy with our class for four days : from 09 May to 12 May for a trip. We were staying in Granville in a nautical center. We were in Normandy most of the time but on Wednesday the 11th we went to Jersey in England.

So we're going to talk about the day we went to the Mont Saint Michel and especially the crossing .

We went on Tuesday 10th, when we arrived it was really hot outside and we were going to walk in the full sun. The crossing of Mont Saint Michel lasted 7 km and we took about 3 hours.

During the crossing, we're walking in the mud and our feet were sinking in it. On our trip we saw birds, insects and seashells; a guide was here to talk about animals and the history of the place.

For example they explained the legend about two rivers around the Mont Saint Michel, the Sélune and the Sée.

At the end we crossed one of the rivers. And finally, we made quicksand; learned to get out of it and it was really fun! Also we had lunch at the entrance and a couple of seagulls were here and attacked us! In the afternoon the guide took us on a tour of the Mont. And after the visit we could do whatever we wanted in the Mont like buying souvenirs, taking a walk in the town ... We were going back to the nautical center around 6 pm.

We choose to talk about this because it's was one of our favorite day, the guide was really interesting and the crossing on the mud was funny, we created new memories . Also the sun was out so it was nice. It was a really intense and sporty day but it was worth it!

On the other hand, on the first day we had a guided tour of the city Granville and after that we could go to the sea and eat ice cream. We went to Jersey by boat to eat fish and chips! And to visit the island of course. Finally on the last day we went on a catamaran and it was impressive! After that we took the car to go back to Taverny. It was the end of the trip and everybody was sad to go back to reality.

In conclusion, the trip made it possible to strengthen ties with all the class, friendships were built and it was also a very rewarding experience; we saw new landscapes , we did new activities... . We are never going to forget this amazing trip and everytime we're going to look at the pictures we're going to remember these awesome moments.
